

Be Part of the Solar Solution

Schüco is the global leader for solar energy systems, with decades of experience and a full line of the most innovative solar products on the market today. Solar technology is a safe and easy way to lower your utility bills, enhance the value of your home and make a positive difference for the planet.

Schüco offers an array of products and systems to meet your home's specific utility needs. We provide systems that create hot water and systems for electricity.

Additionally, we offer our own roof mounting systems combining a beautiful sleek design with long lasting engineering quality.

You can be part of the solution. Schüco and your trained local Schüco installation partner can show you how with photovoltaic systems that generate electricity and solar thermal systems that create heat and hot water for your home.

The entire United States offers excellent solar insolation conditions for a solar thermal system. The insolation in each state is above average

Photovoltaic Systems – Electricity from the Sun

Schüco's photovoltaic systems turn sunlight into free electricity for your home.

As energy costs continue to rise, photovoltaic energy is a proven and effective way to lower your electrical bills. Photovoltaic technology converts the sun's rays into an electrical current without the need for any fuel and completely free of emissions. Since there are no moving parts, a solar photovoltaic system is virtually maintenance-free.

Solar Thermal – Hot Water from the Sun

Schüco's solar thermal systems convert the sun's heat into hot water for your home. Solar thermal technology is one of the most efficient and effective means of utilizing the sun's energy.

Our third-generation, closed-loop engineering has made Schüco a global leader in solar thermal technology. We offer packaged solutions that come with everything you need to turn your home into an energy producer.

Be Part of the Solar Solution

The Easy Way to Reduce Your Home Energy Costs

Your Partner for Windows and Solar Products

Schüco supplies a range of top-quality, innovative products that enhance the beauty, comfort, security and energy sustainability of homes:

Vinyl windows

Patio and French doors

Storm-resistant windows and doors

Solar Photovoltaic systems

Solar Thermal systems

Schüco offers Solar Thermal solutions that turn sunlight into heat and hot water, and Photovoltaic systems that produce electricity. The systems can work separately or together for an all-inclusive solution.
